TRASH BARRELS AT PARK

Mayor Johnsen presented a picture of a painted trash barrel that she would like our park trash barrels to look like. She thought this would be a good community service project for the art class at school. Jeff said he would paint them with the base color and clear coat them when they are done. Trustee Henry will contact the school and arrange this project.

PEDESTRIAN/BICYCLE PATHWAY

Chris Nill addressed the board. A lot of paperwork has been generated as a result of the pathway project. Chris distilled it down into a folder entitled A Pedestrian/Bicycle Pathway System "In a Nutshell" which he presented to all the board members and the clerk. RFQ's were sent to fifteen firms and nine firms responded. Chris said this is a critical time frame; the LDSA list expires at the end of the month, and a decision on an engineering firm needs to be made by April 1st. In his folder he included a draft selection criteria that he would like the board members to use in reviewing the proposals. He asked each member to grade the applications one to nine based on the selection criteria. He would like their scores by March 13th so the three top firms can be invited in for questions and answers before a decision is made. The board agreed to meet with him on March 13th.

FIRE DEPARTMENT

Fire Chief Mark Turner and Harry Bowker spoke to the board about equipment replacement. Both the rescue van and the ladder truck need to be replaced. Ideally, they

would like a combination rescue van and ladder truck. This would be around \$650,000. They could replace the rescue van for around \$350,000. Harry said they need to go to the Town of Manchester for more fire contract money. The Town of Farmington gave a 50% increase this year. The last Town of Manchester increase was 5%. Last year 44% of their fire calls were in the Town of Manchester. Harry will continue to look at other options.
